Software Engineer

Creative Software Engineer with 5 years of experience on Agile Development teams producing enterprise software solutions. I lead with empathy and a passion to deliver high quality results. I am seeking a role in which I can apply my skills and develop efficient software solutions.

Languages: JavaScript, TypeScript, Java, SQL, Python
Frontend: React, ExtJS, HTML5/CSS,

Experience:

App Developer **Able Opportunities** 08/24-03/25
- Worked as the sole Developer for a Financial Literacy app collaborating with the CEO to build out a tool for clients building financial knowledge
- Developed cross-platform mobile applications using React Native with Expo, ensuring smooth performance on both iOS and Android
- Implemented the front end with accessibility focus allowing users to interact with text, images, audio, and video

Software Engineer **Datto | Kaseya** 07/21-07/24
- Lead Engineer for the Kaseya E-Commerce Store built on NetSuite SCA
- Update our pricing based on new product rules and SalesForce integration
- Deploy releases and coordinate testing with QA and Product Manager
- Design and manage architecture diagrams to help the team understand our system and the flow of data with our third-party integrations
- Crafted improvements to Datto's E-Commerce Storefront with new React UI Components for the company's React Component Library
- Spearheaded API project for new RESTful endpoints sending product information gathered from NetSuite to our portal team (TypeScript)
- Built new purchase flows for different Subscription styles which allowed more SKUs to be purchased online (TypeScript, React, HTML5, CSS)

Software Analyst **Biofortis** 03/20- 06/21
- Re-Constructed Reports page based on user feedback so the feature could display necessary information in a cleaner UI (JavaScript)
- Coded new frontend features in HTML5/CSS/JavaScript and backend tasks in Java plus Liquibase scripts for updating the SQLServer database
- Contributed to multiple JavaScript projects, one using the ExtJS framework and the other implemented through a React JS

Education: **Rochester Institute of Technology** Rochester, NY
Bachelor of Science in Software Engineering May 2019
Minor in Computing Security
